

Environmental Policy

Excel (Australasia) Pty Ltd is a technology and communications company encompassing a high end digital print facility.

Our goal is to ensure we have continual improvement in our prevention of pollution for which we will set and regularly review objectives and targets.

We encourage our suppliers and employees to adopt sustainable environmental options through communication and training.

We will work closely with suppliers to ensure compliance and agreed environmental standard for materials sourcing and manufacturing.

Conduct operations in compliance with all applicable legal requirements.

Manage our energy use to reduce the effect on site operation on the production of greenhouse gases.

Yours sincerely

Ken Williams
Managing Director
